Her Best | Her Way

Achievements of 2022

Congratulations Class of 2022

I am delighted to share news of the outstanding results of the Class of 2022. Their achievements reflect how each of these young women has worked to achieve her best, her way, with the support of caring family members, dedicated teachers, and kind peers, who have walked alongside her.

From their first day at Walford, students are immersed in a community of care, and a culture of aspiration, inspiration, learning, and the pursuit of personal excellence. Each student at Walford is supported to develop her knowledge and skills, but also her values, courage, voice, leadership capacity, and wellbeing. The results herein are the culmination of each student's whole schooling journey, from the early years through to Year 12, including the challenges she overcame and the lessons she learned along the way.

Each young woman's story is unique, and her results are the tip of the iceberg of her achievements. Along their Walford journey, students have navigated relationships, managed competing responsibilities, performed in a wide variety of arenas, built resilience, persisted, discovered their talents, strengthened their values, and led and served others. They have become remarkable, world-ready young women.

Every young woman in the Class of 2022 can be immensely proud of what she has achieved, and know that she is ready for her future, for success in her chosen pathway, to live a life of purpose, and to make a positive difference in the world.

Go well, Class of 2022, with my best wishes for your bright and bold futures.
